📄 Summary

I am a passionate React Frontend Developer with 4.5 years of industry expertise, including over 2 years in JavaScript development. My experience includes building scalable, performance-driven web applications using React.js, modern JavaScript, and clean component-based architecture. I possess strong skills in API integrations, responsive designs, debugging, and modern deployment workflows using Git, Docker, and Vercel. I bring extensive experience in JavaScript-based development along with a strong foundation in UI/UX best practices. I am seeking to leverage my knowledge in a React Frontend Developer role to create engaging user experiences. I also bring added value through my background in CRM platforms, bridging technical front-end development with business workflows and customer-centric design.

⚛ Areas of expertise

- React Development
- DOM Manipulation
- Responsive Design
- State Management
- API Integration
- CRM Exposure
- Debugging Skills
- Version Control
- Web Deployment

💼 Work experience

Programmer Analyst
Cognizant Technology Solutions — Feb 2022 – Present
Tech Stack: JavaScript, HTML5, CSS, SAP C4C (CRM), Web Mashups, REST APIs, SAP ABAP, PDI SDK

- Worked on SAP C4C (Cloud for Customer) CRM platform, configuring modules like Leads, Opportunities, Quotes, Orders, and Visits.
- Built and integrated Web Mashups (URL, HTML, Data) to extend C4C with custom UI components and external APIs.
- Gained CRM business knowledge across B2B sales, service, and visit management cycles.
- Used SAP PDI SDK for object creation, bug fixes, enhancements, and backend debugging.
- Reviewed and customized embedded JavaScript in Fiori-based UI screens for dynamic validation and API handling.
- Enhanced internal CRM UI using JavaScript by implementing scoped workflows, client-specific personalization features, and dynamic rendering. Contributed to DOM scripting, fine-tuning, and custom UI logic for improved user experience.
- Developed custom UI logic and dynamic rendering for effective and user-centric interfaces using JavaScript.

Front-End Web Developer
Teleperformance — Oct 2020 – Jan 2022
Tech Stack: HTML5, CSS3, JavaScript

- Built and supported internal web applications using HTML, CSS, and JavaScript.
- Created responsive designs and improved UI consistency across devices and browsers.
- Collaborated with backend teams to integrate APIs and optimize data flows.
- Resolved front-end bugs, optimized code for performance, and ensured accessibility compliance.

Web Developer Intern

Janakalyan Multipurpose Education Society Company — July 2020 – August 2020

Tech Stack: HTML5, CSS3, JavaScript

Website: jankalyantrustindia.org

- Collaborated with a small team to design a responsive NGO website using HTML, CSS, and basic JavaScript.
- Worked on UI layout structuring, form creation, and navigation elements.
- Implemented basic form validations and interactive buttons using vanilla JavaScript.
- Gained hands-on exposure to structured front-end workflow and project delivery process.

Web Development Intern - Full Stack Program

Edureka — [17th July 2021 –2nd February 2022]

Tech Stack: HTML5, CSS3, JavaScript

- Built a complete web product as part of a 5-member intern team under Edureka's full stack training program
- Focused on front-end development using JavaScript with DOM manipulation for interactive features.
- Designed modular and responsive pages using semantic HTML5 and modern CSS techniques.
- Practiced collaborative coding using Git and version control systems.

Education

- **2020**   **B.Tech – 7.76/10.00 (CGPA)**
  Computer Science & Engineering
  A.S.N Women's Engineering College, Tenali, Andhra Pradesh.
- **2016**   **XII – 9.31/10.00 (CGPA)**
  Mathematics Physics & Chemistry
  Sri Chaitanya Junior College, Tenali, Andhra Pradesh.
- **2014**   **X – 9.3/10.00 (GPA)**
  Bhashyam Public School, Tenali, Andhra Pradesh.

Skills

Measurable Achievements: Built scalable web applications, enhanced internal CRM UI using JavaScript, implemented responsive designs, and developed dynamic components using React.js.

Soft Skills: Collaboration, Problem-solving, Communication, Adaptability, Attention to Detail

Hard Skills: *Frontend Technologies:* HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript (ES6+), DOM Manipulation, React.js, JSX, Lifecycle Methods, Redux, Responsive UI Design.

*Version Control***:** Git, GitHub, GitLab, Jenkins, Docker, Vercel.

Web Technologies: REST APIs, JSON, Chrome DevTools, Postman, VS Code.

CRM Platforms & SAP: SAP C4C (Sales & Service Cloud), PDI SDK, SAP ABAP, Web Mashups (URL, HTML, Data), UI Scripting, Debugging, CRM Domain Knowledge.

Projects

React Portfolio Website (React.js)

Crafted a responsive personal portfolio using React.js and Bootstrap, showcasing modular UI design and smooth navigation flow. Highlights include contact forms, project cards, and dynamic routing. Hosted on Vercel.

Cart – E-commerce Shopping Cart (React.js)

Built an interactive shopping cart with React Hooks and JSON APIs, supporting dynamic product listing and cart updates. Focused on clean state management and a seamless user checkout experience.

Music Library App (React.js)

Developed a music browsing platform with React.js featuring live search, genre filtering, and playlist previews. Emphasized reusable components and event-driven UI architecture.

SowTrip – Travel Booking Website (HTML/CSS/JS)

Developed a fully dynamic travel booking website using HTML, CSS, and JavaScript with direct DOM manipulation. Built multi-page routing, animated booking forms, and responsive layouts without relying on frontend frameworks.
